**Welcome to The WAVE, Where We All have a Valuable part in our kid's Education!**

The dictionary defines a "wave" as a uniform advancing force. That describes Wayside Elementary School's volunteers perfectly! We're uniform, organized, and have a united purpose. We're advancing, moving forward, making progress. We're a force, making a difference in the lives of the children we serve and the culture of our school.

**Our mission** is to enlist, retain, and motivate parents as volunteers at Wayside for the purpose of enriching our children's academic success.

**Our goal** is to reach 1800 academic volunteer hours for the 2011-2012 school year. We hope you will help us reach this goal and sign up to volunteer today if you haven't already! Please view volunteer opportunities or contact one of the WAVE committee members listed above.

**Appreciation** ~ All volunteers at Wayside are greatly appreciated! We understand that volunteering with the WAVE requires a periodic commitment throughout the school year and we would like to show our thanks. As a token of our gratitude, you will receive a small gift after completing your volunteer training and be entered each month to win the highly coveted WAVE parking spot. If you are the winner, you will be notified and your name will be posted in the monthly school newsletter and website.

We will track the WAVE's results monthly and post accumulated volunteer hours on the WAVE bulletin board and exterior surf board. Upon achieving our goal of 1800 volunteer hours, we will treat WAVE academic volunteers and their family to an end of year ice cream party celebration in May.

**Safety** ~ Please remember the importance of signing in at the front office as a volunteer. It is not only important from a safety standpoint to know who is in the building, but also allows us to track our success as a volunteer program and improve Wayside's performance rating at the state level!
