

Dear Parents:

The information on this school report card is based on the testing scores and data from the 2005-2006 school year. Our overall API was up significantly. We are very pleased to see that our test scores exceeded the state average in third, fourth and fifth grades in both reading and math.

This information is important for all of us. Education needs to be a priority for our children. School attendance is very important and an area that we need to work on improving at Wilson. The more days a child is in attendance, the more opportunity they have to learn the material that is vital for success. Also a higher attendance rate improves our API score.

If you have any questions as you look over this information, please do not hesitate to contact myself or your child's teacher.

Thank you for all of your support,

Sandra Kent
